Pocono Environmental Education Center (PEEC)

Environmental Education Instructor

PEEC currently has instructional staff openings for the 2013 season. PEEC Instructors will offer lessons and activities addressing a wide range of topics relating to natural history and ecology, environmental issues, outdoor living skills, teamwork, and communication. Group participants range from pre-school children to adults.

PEEC Instructor positions are typically three to ten month appointments, with the possibility of renewal for the following year. The 2013 season will begin in February and most contracts will run through mid-November. We also welcome applications from those wishing to start in April or May and work through August. Most instructors will work with our nature-themed day camp from mid-June to mid-August. Job responsibilities will include the following:

- Plan and deliver environmental education programs
- Develop program activities & lessons facilitated at the center
- Assist with facility upkeep and receptionist duties

Qualifications for Instructor positions include a college degree in Environmental Science, Biology, Ecology, Education, or related discipline, experience teaching and/or working with groups, ability to work independently and as a team player, a positive and progressive mindset, and an orientation towards working to complete tasks with quality. Certifications in First Aid, CPR, AED, and/or Lifeguarding are desirable. All hires must submit to Criminal Background checks, including fingerprinting & child abuse clearances.

Salary: $225 per week, plus room and board.

To Apply: Send cover letter stating position desired, resume, and three references to: Allison Owczarczak
